Subject: RE: 14_09. 29, Reference letter for Fani Hansen /DHA

Hi Fani,

As you know, we here at the City of Pittsburg are about to celebrate the 15 year anniversary of our Civic Center which you designed. To this day, we continue to hear compliments from first time visitors to the Civic Center about the beauty of the building. Also, as I have shared with you in the past, an unexpected benefit of the building has been our enhanced ability to attract high quality staff to our City. The work environment that you designed has contributed significantly to the first impression of potential new employees in every City department. Many of the quality employees that we have been able to attract have helped lead Pittsburg through the recent recession while retaining financial stability, and others have assisted in lowering has the City's crime rate to record lows.

Thank you again for your hard work.

Joe Sbranti
Now City Manager
